Phone | guruabhaymagapu@gmail.com | LinkedIn | GitHub | Portfolio | Andhra Pradesh, India

## Professional Summary

Cybersecurity Analyst with an M.S. in Computer Science and hands-on experience through SOC labs, security projects, and cybersecurity investigations. Skilled in alert triage, incident response, log analysis, IOC investigation, and incident documentation using Microsoft Sentinel and Splunk SIEM. Proficient in KQL and SPL for analyzing Windows Security Logs, Sysmon telemetry, endpoint artifacts, authentication activity, and network indicators to investigate suspicious activity, correlate events, and map findings to the MITRE ATT&CK framework.

## Technical Skills

**SIEM & Analytics:** Microsoft Sentinel, Azure Log Analytics Workspaces, Splunk SIEM, Kusto Query Language (KQL), Search Processing Language (SPL)

**Security Operations & IR:** Alert Triage, Incident Response, Incident Investigation, Log Analysis, Threat Hunting, IOC Analysis, Incident & Escalation Ticketing, Incident Documentation, MITRE ATT&CK Mapping

**Threat & Endpoint Investigation:** Windows Security Logs, Sysmon, PowerShell, Process Tree Analysis, File Hash Analysis, IP/Domain Analysis, VirusTotal, User/Device Baseline Analysis, Analytic Rules

**Network & Cloud:** Wireshark, TCP/IP, DNS, Active Directory, Microsoft Azure, Microsoft Entra ID (Azure AD), AWS (IAM, EC2, VPC, S3)

**Security Operations Knowledge:** SOAR, EDR, Host Isolation, SLA, MTTA/MTTR, ISO/IEC 27001, ISMS

## Projects

### SOC Alert Detection & Incident Investigation using Microsoft Sentinel

Jun 2026 – Present

- Configured a cloud SOC monitoring environment using Microsoft Sentinel and Azure Log Analytics workspaces to ingest Windows Security Events and Sysmon telemetry.
- Authored custom KQL analytic rules to detect brute-force authentication attempts (Event ID 4625), anomalous logon activity, and suspicious account modifications.
- Investigated Sysmon process-creation events (Event ID 1) and suspicious PowerShell execution using KQL, analyzing parent-child process relationships, PID/PPID values, command-line arguments, and endpoint artifacts.
- Correlated endpoint telemetry, RDP activity, and file artifacts to reconstruct timelines, assess scope, and determine incident verdicts.

### SOC Alert Detection & Incident Investigation using Splunk

Feb 2026 – May 2026

- Configured a multi-source Splunk environment ingesting Windows Event Logs and Linux system logs through Splunk Universal Forwarders.
- Wrote SPL queries to analyze authentication activity, identify anomalous failed logons (Event ID 4625), and distinguish suspicious activity from known administrative baselines.
- Investigated IOCs, reconstructed incident sequences, and mapped findings to MITRE ATT&CK techniques.

### Ransomware Detection & Mitigation System

Jan 2025 – Apr 2025

- Developed a simulated ransomware detection system using Python, combining Watchdog-based file-system monitoring with behavioral detection of rapid file modifications.
- Implemented a controlled ransomware simulation using Fernet encryption with RSA-based key protection, followed by Psutil-based process termination, Tkinter user alerting, event logging, and automated backup for recovery.

## Experience

### Web Application Penetration Testing Intern | Indian Servers

Jun 2021 – Sep 2021

- Conducted web application vulnerability assessments based on the OWASP Top 10 using Burp Suite and OWASP ZAP.
- Performed network reconnaissance, port scanning, and packet analysis using Nmap and Wireshark to identify security weaknesses.

### AWS Cloud Intern | EduSkills Foundation

Oct 2021 – Dec 2021

- Completed the AWS Cloud Virtual Internship covering EC2, S3, VPC, IAM, RDS, and cloud architecture fundamentals.
- Applied cloud security principles including IAM, least privilege, and secure resource configuration.

## Certifications

KC7 Security Analyst I – Cybersecurity Investigation | Microsoft Certified: Azure Fundamentals (AZ-900)

AWS Certified Solutions Architect – Associate | Splunk Search Beginner Learning Path | Cisco Networking Basics

## Education

Master of Science in Computer Science | University of North Texas, Denton, TX, USA

2024 – 2025

Bachelor of Technology in Computer Science | Koneru Lakshmaiah University, India

2019 – 2023
